

BATTLECRUISER 3000AD™

APPENDIX R

STARSTATIONS/STAR BASES DATABASE

The following is a list of the Star Stations found in the Galaxy. All ranges and lengths are in meters, and all times in milliseconds. The laser blast energy figure given is per shot fired by each laser or Ion Disruptor denoted as the Star Stations most powerful turreted gun. The initial missile and craft complement is listed as a guide only, as these loadouts may change as the game progresses, depending on stores levels and hostile engagements involving the station.
